Asbestos Control Bureau

The Asbestos Control Bureau oversees the abatement of toxic hazards associated with asbestos fiber during the rehabilitation, reconstruction or demolition of buildings and other structures originally constructed with asbestos or asbestos containing materials. The Bureau enforces the New York State Labor Law and Industrial Code Rule 56 (Asbestos). Requirements of this code include the licensing of contractors, certification of all persons working on asbestos projects, filing of notifications of large asbestos projects and pre-demolition survey of buildings to identify any asbestos, which may be present, to ensure proper abatement of asbestos materials. The Bureau works closely with the Environmental Protection Agency (EPA).
