

TUXEDO COMMUNITY POWER ELECTRICITY SUPPLY PROGRAM: Renewable Energy at Competitive Rates

Monday, November 27th Info Session: Get Answers to Your Questions

The Town of Tuxedo is exploring a bid to participate in an innovative renewable energy program, which would be called the Tuxedo Community Power program.

If the Town moves ahead with this program, the Tuxedo Community Power program will provide access to renewable electricity supply at competitive rates, with no contracts for consumers. The program can have a measurable positive environmental impact, giving each of us a way to reduce our carbon footprint and providing strong consumer protection.

Join us on November 27th, at 6:30 pm in person before the Town Board meeting - or online or by phone to learn more:

Join in person in Tuxedo Town Hall: 1 Temple Drive. Tuxedo, NY 10987

For more information about the program, you can also check <https://www.joulecommunitypower.com/tuxedotown>

You can also email the program administrator at solutions@joulecommunitypower.com or call: (888) 985-2211.
